

## Final Report for Final Project PRG 455 Seneca Covid-19 Screening

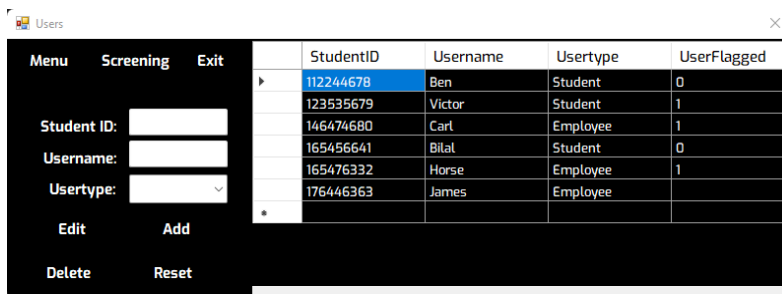

This is the main menu with the User , Screening & Exit option each option will take the user to the designated form make for each input

When the User option is picked this form will load with all the user information with there ID, Username, User type & whether they are flagged or not.

The underline tabs will change forms.

The user types in the information for the user & when add is pressed the user is added into the table.

Edit is done when the id & other are put into the text box

Delete can delete any user with the student ID typed in & reset as well

User flagged is only updated when the screening is finished.

When screening option is pressed either from menu or users form this form will open up in which the user can be selected from the ID Select & then all his information is inputted & then the verify button is pressed.

This means the user is not flagged

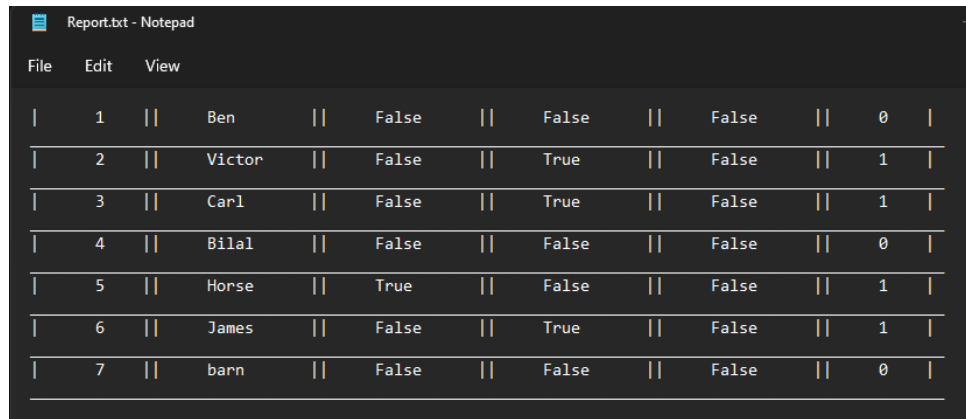

This means the User is flagged & information cannot be changed unless force edit is clicked

This mean this user has not been through the screening
